IND-SW-PB20-ES-2HX-DPDT

Emergency Stop Double Throw Push Button - Mushroom Head - Weatherproof - (2) Hubs - IP66, NEMA 4X/13

Product ID: 221691

Image: IND-SW-PB20-ES-2HX-DPDT

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

IND-SW-PB20-ES-2HX-DPDT Industrial Emergency Stop Switch
Type: Mushroom Head Emergency Stop Switch
Dimensions: 3.95"W x 4.21"H x 4.16"D
Voltage Rating: 690V AC 50/60Hz
Amperage Rating: 20A
Horsepower Rating: 2 HP
Contacts: (2) Normally Open & (2) Normally Closed
UV Protection: f1
Configuration: Pull Release or Twist Release
Ambient Operating Temp Range: -50°C to +60°C
Housing Materials: Non-Metallic Glass Reinforced Impact Resistant Anti-static Material
Gasket Material: Silicone
Mounting: Din Rail Mount
Wiring Hub: (2) 1/2" NPT Hubs or (2) M20 Clearance Hole Hubs
Hub Location: (2) @ Bottom Side
Button Color: Red
Housing Color: Black

Ratings
Certified for United States & Canada
IP66 Weatherproof
NEMA 3, 4, 4X, 12, 13
V-0 Flame Retardant Rating
Double Pole, Double Throw

The IND-SW-PB20-ES-2HX-DPDT from Larson Electronics is a non-metallic mushroom head emergency stop double pole double throw push button that is designed for controlling motors, machines and devices in industrial sites. This IP66 rated unit

contains a din rail mount design and is constructed of impact resistant glass reinforced non-metallic material with silicone gaskets. Equipped with two hubs at the bottom side of the switch, the NEMA rated emergency stop switch features a black housing color with a red button and boasts a compact size for convenient mounting and use.

The IND-SW-PB20-ES-2HX-DPDT is an emergency stop switch for industrial machines and buildings. It is equipped with two sets of contacts including (2) normally open and (2) normally closed making it a double pole, double throw switch. This unit features protected contact blocks that are rated for voltages up to 690V AC, is capable of handling 20 amps for switching duty and has a horsepower rating of 2 HP. The switch also features silver alloy contacts with gold flashing. This non-metallic mushroom head emergency stop push button switch has an ambient operating temperature of -50°C to +60°C and can be used in conjunction with motor starters or contactors for remote operation of motors.

This double pole double throw unit features a non-metallic housing that is constructed of PA6 glass reinforced anti-static material that is impact resistant, f1 UV resistant and has a flame retardant rating of V-0. Equipped with silicone gasketing throughout, the housing on this switch is black and the button itself is red which offers plenty of contrast for visibility of the button.

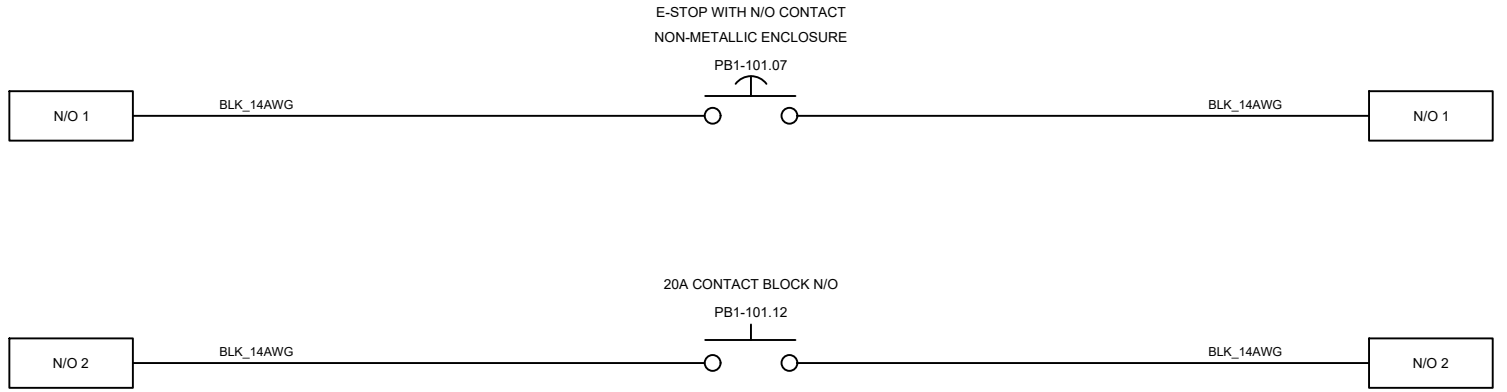

The NEMA-rated switch is equipped with two, 1/2" NPT hubs or two, M20 clearance hole hubs. Both hubs are located at the bottom side of the unit. This switch is also available in a pull release or twist release configuration. Please make your selections when ordering below.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
