EPF-RME-12-0.5HP-3P-480V

12" Explosion Proof Exhaust Fan - 1200 CFM - 1/2HP, 480V 3PH - Roof Mount

Product ID: 265172

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

EPF-RME-12-0.5HP-3P-480V Explosion Proof Ventilation Fan
Listing: NRTL Listed for United States
Type: Explosion Proof Roof Mounted Exhaust Fan
Propeller Dimensions: 12" - Diameter
Unit Dimensions: 14.25"-L x 14.25"-W x 20"-H
Weight: 40 Lbs
Voltage: 480V AC
Phase: Three Phase
Motor: 1/2 HP Fully Enclosed Explosion Proof
Rotations Per Minutes (RPM): -
Peak CFM (@ 0" SP): 1200
Max Sones @ 5`: -
Materials: Non-Sparking Aluminum, Spun Aluminum
Mounting: Roof/Ceiling Mount
Wiring: Hard-Wire

Ratings/Features
Class I, Divisions 1 & 2 Group D
Class II, Divisions 1 & 2 Groups F & G
Rated for Hazardous Environments
Built-in Bird Screen

The EPF-RME-12-0.5HP-3P-480V from Larson Electronics is an Explosion Proof Exhaust Fan for use in flammable environments. Equipped with a built-in bird screen, this multi-tap unit operates on three-phase 480V AC. The 1/2 horsepower (HP) explosion proof fan is constructed of non-sparking/spun aluminum and is compatible with roof/ceiling mounting applications.
The EPF-RME-12-0.5HP-3P-480V explosion proof fan is rated for Class I, Group D and Class II, Groups F & G hazardous environments. This three-phase explosion proof ventilation fan has a 1/2 HP fully enclosed motor that spins the propeller. Capable of achieving 1200 cubic feet per minute (CFM), the explosion proof exhaust fan features a built-in bird screen.
The explosion proof fan is constructed of non-sparking and spun aluminum,

resulting in a lightweight unit. The 12" diameter propeller on this explosion proof high pressure ventilation fan resists sparking, further increasing the safety of the hazardous environment in which the fan is being utilized.
Voltage: The EPF-RME-12-0.5HP-3P-480V operates on three-phase 480V AC.
Wiring: The explosion proof exhaust fan is a hard-wired unit that should be installed according to national, state and local electrical and mechanical codes.
Mount: Operators may mount the fan on ceilings or roofings during installation.
Applications: Class I, Group D and Class II, Groups F & G hazardous areas that require ventilation including but not limited to the following: clean rooms, marijuana extraction rooms, laboratory hoods, oil refineries, grain mills, chemical plants, welding shops, chemical storage areas and battery changing areas.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.

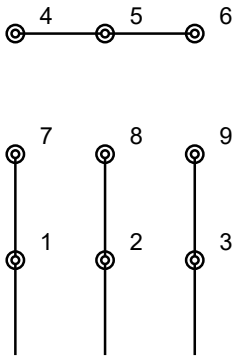

Wiring Diagram

WARNING: *DO NOT SERVICE WHILE ENERGIZED!*

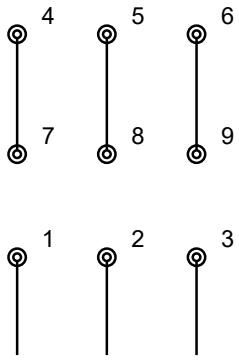

EPF-RME-12-0.5HP-3P-480V

Connect the motors of all fans according to the diagrams inside the terminal box cover or on the nameplate. **BE SURE TO CONNECT FOR THE VOLTAGE, FREQUENCY AND PHASE TO BE USED.**

LOW VOLTAGE (2Y)

HIGH VOLTAGE (1Y)

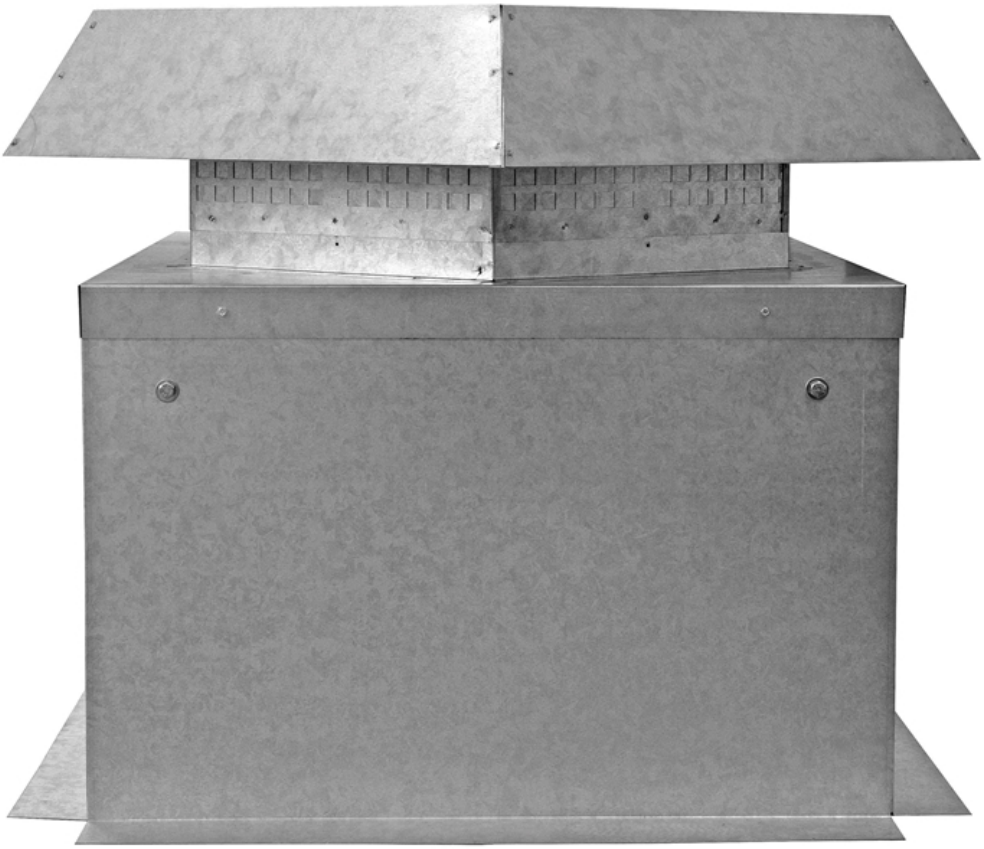

Dual-voltage single phase motors are factory-connected for 230 volt lines. Dual-voltage three-phase motors are factory-connected for 460 volt lines. Provide Nationally Recognized Testing Laboratory recognized electrical overload protection not to exceed 125% of the marked input rating of the fan motor.

Certification

Manufacturer: Larson Electronics LLC
Address: 9419 US-HWY 175
Kemp, Texas 75143

Declare the following equipment conforms to the standard(s) as listed:

Model: EPF-RME Series
Description: Explosion Proof Roof Mounted Fans

Evaluated Listings:

- **UL:** PTDR.E312535 – NEC / United States standards for MOTORS FOR USE IN HAZARDOUS LOCATIONS
- **UL:** PTDR2.E312535 – NEC / United States standards for ELECTRIC MOTORS, MOTOR SUBASSEMBLIES AND MOTOR ACCESSORIES FOR USE IN HAZARDOUS LOCATIONS – COMPONENT
- **UL:** PTDR7.E312535 – CEC / Canada standards for MOTORS FOR USE IN HAZARDOUS LOCATIONS CERTIFIED FOR CANADA
- **UL:** PTDR8.E312535 – CEC / Canada standards for ELECTRIC MOTORS, MOTOR SUBASSEMBLIES AND MOTOR ACCESSORIES FOR USE IN HAZARDOUS LOCATIONS CERTIFIED FOR CANADA – COMPONENT

The EPF-RME Series is certified to NEC and CEC standards hazardous locations for:

- NEC: Class I, Divisions 1 & 2, Groups C, D; Class II, Divisions 1 & 2, Groups E, F, G
- CEC: Class I, Divisions 1 & 2, Groups C, D; Class II, Divisions 1 & 2, Groups E, F, G

The EPF-RME Series is comprised of a Bluffton explosion proof motor. This motor is custom mounted to the fan cage and non sparking fan propeller assembly. The fan assembly is mounted to a galvanized enclosure structure for roof mounting. The fan assembly may be equipped with cord or controls. This assembly is built to NEC and CEC standards for hazardous locations.

Material Safety Data Sheet

To Whom It May Concern,

The Larson Electronics LLC EPF industrial line of fans for hazardous locations are considered "ARTICLES" under 29 CFR 1910-1200, the OSHA Hazard Communication Standard, and do not require a Material Safety Data Sheet (MSDS). This document does not expire.

Articles are specifically exempt from the regulations of this standard. OSHA defines an article as follows:

1910-1200(c) – Article means a manufactured item other than a fluid or particle:

i. Which is formed to a specific shape or design during manufacture;
ii. Which has end use function(s) dependent in whole or in part upon its shape or design during end use; and
iii. Which under normal conditions does not release more than very small quantities.

The "hazardous location" and "explosion proof" are terminology for the environment where these products will be installed. This is not to be confused with "hazardous materials;" this product does not contain any hazardous materials.

Regards,

Ray Smith
Larson Electronics, LLC.

CE: DIRECTIVE 2015/863/EU - ROHS DIRECTIVE

This is to certify that products offered by Larson Electronics LLC comply with the Reduction of Hazardous Substances (RoHS) directives. Directive 2002/95/EC became effective on 1 July 2006. It restricts the use of six substances in the manufacture of electrical and electronic equipment. This directive was revised in June 2011 and is now referred to as directive 2011/65/EU. Directive 2015/863/EU amending Annex II to Directive 2011/65/EU announced plans to add four substances from 22 July 2019.

We hereby certify that the equipment specified above conforms to the Directive(s) by containing less of the restricted substances than the stated limits.

Evaluated Listings:

CE: Regulation (EC) No 1907/2006 - REACH REGULATION

This letter establishes the opinion of Larson Electronics LLC regarding the status, under the current European Union ("EU") Regulations on Registration, Evaluation, Authorization, and Restriction of Chemical Substances ("REACH").

REACH does not apply to manufactured products which are referred to as "completed articles". Substances (chemicals) are subject to REACH registration, NOT products.

In addition, Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern or candidate substance in an amount exceeding 0.1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released.

Based on communication with our raw material suppliers, we conclude that to the best of our knowledge our products requiring REACH compliance do not contain any of the currently listed SVHC in concentrations of 0.1% or above.

Accordingly, we foresee no registration or pre-registration requirement for the products we supply.
