

XLE-MD-SG-PC-4XH-R1

Safety Goggles - Splash Protection - Polycarbonate Construction - Indirect Ventilation - 99.9% UV Absorption

Product ID: 267015

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The XLE-MD-SG-PC-4XH-R1 from Larson Electronics are Safety Goggles that offer indirect ventilation, an elastic strap, and durable polycarbonate construction.

The XLE-MD-SG-PC-4XH-R1 safety goggles are designed to fit over prescription eyewear and provide an indirect ventilation system to prevent fogging. The polycarbonate lens absorbs 99.9% of UV light and are ideal to use in a variety of different applications and environments. The XLE-MD-SG-PC-4XH-R1 safety goggles provide splash protection and meet ASTM requirements for testing parameters for specific hazardous drugs.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
