Installation: The MMP-FSD-F350-2024-LED is easy to install and requires absolutely NO drilling. This magnetic mounting plate installs via the 3rd brake light on 2024 Ford F350 Super Duty aluminum body pickup trucks between the body of the truck cab and the light. Operators simply remove their 3rd brake light, position the mounting plate bracket and reinstall the light through the bracket.

Having a reverse camera in the 3rd brake light (NOT in the tailgate or bumper) will change the mounting bracket design. Those with a camera must choose the "camera" option in order to get the correct design. Please choose the appropriate option below.

Please note that the MMP-FSD-F350-2024-LED is designed for trucks with LED 3rd brake lights ONLY. Operators with incandescent 3rd brake lights will require the MMP-FSD-2024. Incandescent mounting plates and LED mounting plates are NOT interchangeable.
