LEDWL-6R-M

5W Battery-Powered LED Indicator Light - Visible up to 500' at Night - Colored Lens - Magnetic Mount

Product ID: 271027

Image: LEDWL-6R-M

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDWL-6R-M Battery-Powered LED Indicator Light
Lamp Technology: LED
Lamp Dimensions: 4.875" - Base OD
Weight: -
Voltage: -
Watts: 5W
Lumens: -
Expected Lifespan: 50,000+ Hours
LED Color: Red, Blue, Green, Amber, White, Purple, or Red/Blue
CRI: -
Lamp Type: -
Lamp Base: -
Replacement Lamp: -
Beam Angle: 360°
Light Configuration: Steady Burn
Visibility: Up to 500' at Night
Amps: -
Operating Temperature Range: -
Materials: -
Lens: Colored
Mounting: Magnetic Mount
Battery Type: 2,000 mAh Lithium-ion
Charger: 120 V AC w/ 5-10P Cord Cap or DC Charger w/ Cigarette Plug

Features
Battery Powered

The Larson Electronics LEDWL-6R-M Battery-Powered LED Indicator Light is a compact indicating device with portable applications. This 5-watt light provides a highly effective alternative to beacons that require wiring and special permanent mounting. Powered by a lithium-ion battery, the unit is available with an AC charger or a DC charger.

The LEDWL-6R-M offers powerful indicating in outdoor and industrial locations. This 5-watt unit has a colored lens and is powered by a rechargeable 2,000 mAh lithium-ion battery. During use, the light is visible at distances up to 500 feet at night. Color options include: red, blue, green, amber, white, purple, or red/blue. With no need for wiring or external power sources, this light is ideal for applications where an indicator light is needed on an occasional or temporary basis such as farm equipment, warehouse equipment, cars, or trucks.

LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electric current is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life.

LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights and contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated. In addition, LEDs are also safer for the environment as they are 100% recyclable, which eliminates the need for costly special disposal services required with traditional gas burning and arc type lamps.

Charger: The LEDWL-6R-M comes with an AC charger that operates on 120 V AC and features a 5-10P cord cap or a DC charger with a cigarette plug for low voltage connections.

Mounting: This LED indicator light has a magnetic base for seamless, quick mounting without tools.

Applications: Industrial, manufacturing, towing, forklifts, cranes, trailers, security, warehouses, and anywhere a fast and simple beacon solution is needed.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
