The EPS-DCSW-50A-600V hazardous location disconnect switch/breaker is made of copper-free aluminum and features a rectangular bolted cover design for uniform and attractive installations. Cover bolts on this unit are made from stainless steel. During operation, the external on/off lever can be locked into the "off" position with room for up to three padlocks for superior security. The internal circuit breaker handle mechanism is a sliding plate type mounted to the cover. The circuit breaker is suitable for both indoor and outdoor locations, and is trip-free from the external handle mechanism.

Applications: Petroleum refineries, chemical and petrochemical plants, storage areas, and other processing facilities where hazardous substances are handled or stored.
