990X-INTL

15 Million Candle Power Rechargeable HID Pistol Grip Handheld Spotlight -35W HID- 2.5 hour Run Time

Product ID: 273

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

990X-INTL Rechargeable HID Spotlight
Lamp Type: High Intensity Discharge (HID)
Dimensions: Handle - 4.5"L x 1.5"D x 5/8"W
Weight: 3 Lbs 6 Oz
Watts: 35 Watts
Voltage: Rechargeable - 220-240V AC Wall Charger
Plug: Schuko 2-Pin Plug
Output:: 15 Million Candlepower
Lamp Life Expectancy: 4500 Hours
Beam Lux in Spot: At 10 Ft: 5,080 At 15 Ft: 3,560
Beam Lux in Flood: At 10 Ft: 1,890 At 15 Ft: 1,188
Battery: Lithium Ion
Beam Type: Adjustable, Spot or Flood

3 year warranty replacement on this HID light. After 30 days, the customer ships the failed light to Larson Electronics at their expense. If the failure is a manufacturer defect, we will ship a new replacement to the customer. If failure occurs within 30 days of receipt, Larson Electronics Larson Electronics will provide a return label via email to the customer. When the failed light is returned, Larson Electronics will ship a new replacement.

Features
High Output 35 Watt HID Bulb
Lightweight Ergonomic Design
No Tools Field Serviceable
2.5 Hour Runtime
Heavy Duty Nylon/ Polycarbonate Construction
Rechargeable Lithium Ion Battery
15 Million Candlepower

The 990X-INTL from Larson Electronics is an extremely rugged and powerful rechargeable HID spotlight designed to provide maximum output and complete portability. This spotlight produces a 15 million candlepower light beam capable of reaching over 2800 feet in length and can be user adjusted to produce either a tightly focused and intense

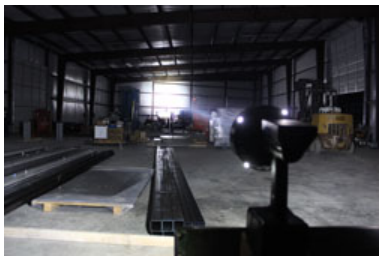

spotlight beam or a wide floodlight beam. An included rechargeable lithium ion battery pack provides over 2 hours of runtime and high impact nylon and unbreakable polycarbonate construction provides light weight operation and extreme durability.

This light weight and waterproof 35 watt HID spotlight is ergonomically designed to produce a well balanced and easily managed handheld light source that can withstand demanding conditions and use. The entire unit weighs only 3 lbs 6 oz and is constructed with a high impact nylon handle and lamp housing and a thick polycarbonate lens for extreme durability. The unique lens and reflector design of this unit allows it to produce a high quality spotlight beam with exceptional intensity and long reach without irregularities or lens artifacts.

Users can also lift the locking tab behind the lamp housing and rotate the lamp head to adjust the beam configuration. Rotating the housing adjusts the beam from a wide, soft flood pattern to a tight, spot beam reaching up to 2800 feet in length. Continued rotation to the extreme disconnects the lamp head from the handle assembly, allowing operators to quickly and easily replace the bulb when necessary.

Backed by a 3 year warranty, our new Larson Electronics rechargeable handheld spotlight is ideal for work, security, hunting and spotting.

"When it comes to hunting predators I want every advantage I can get. I trust my success to Larson Electronics. They are without a doubt the best spotlight you can find for night hunting." - Dustin Butler, Team Foxpro

Adjustable Lens - Spot

Adjustable Lens - Flood

This units` reflector is designed to provide maximum efficiency and power by capturing and focusing all of the light produced by the 35 watt HID bulb. The shallow convex lens produces minimal light loss and beam spillage with over 90% of the produced light concentrated and focused. While many typical spotlights lose as much as 50% of their output to light escaping around the lens and creating beam spillage, our spotlight produces a well focused and directed light beam of excellent whiteness, intensity and power. The 35 watt bulb in this unit is rated at 4500 hours of operational life and produces 15 million rated candlepower.

The compact lithium ion battery pack is recharged in 4 hours by an included 220-240V charging unit and provides 2.5 hours of operation. The charger is equipped with a two pin schuko plug adaptor. A booted push button switch provides easy one finger operation and the no-slip textured surface of the handle provides a sure grip even in wet conditions. A lanyard attachment at the top of the handle adds further protection against dropping should operators lose their grip.

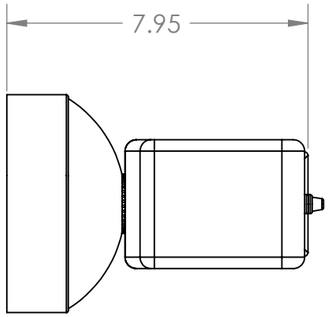

The ergonomic handle is 4.5 inches long, 1.5 inches deep and 5/8 inch thick, and the battery pack casing is approximately 4.5"L x 3.5"W x 2.5"D. The 990X-INTL spotlight is designed for easy field maintenance with simple internal connectors accessed through the snap in base at the bottom of the handle and a lamp housing that is easily removed to access the bulb and wiring. No tools are required to change any part of the light including the bulb and battery pack.

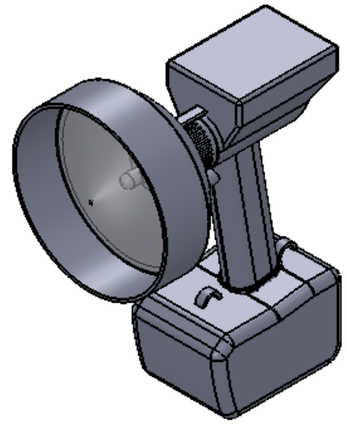

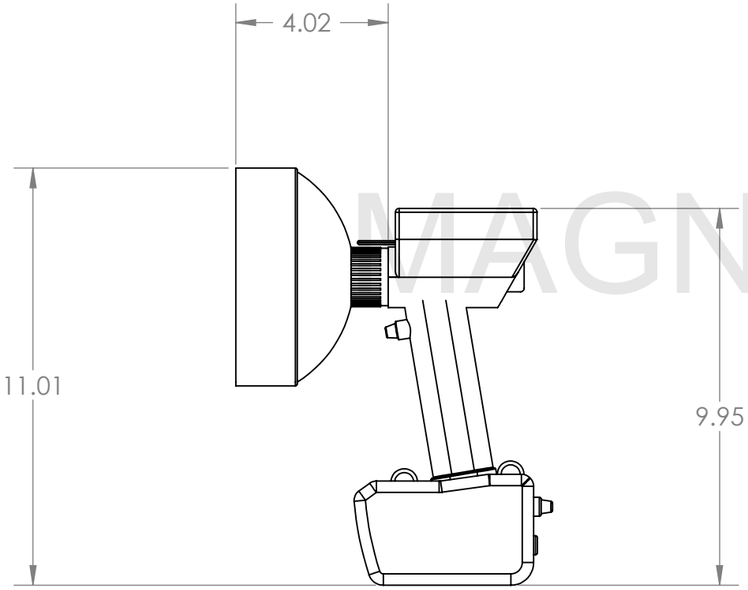

5 inch lens

7 inch lens (Optional)

We also now offer a 5 inch diameter and a 7 inch diameter lens. Although the difference is not significant, the 5 inch lens produces a tighter spot beam while the 7 inch lens produces a wider coverage flood pattern.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
