The MT-XX-DTM-WM-30KVA from Larson Electronics is a Wall Mount Bracket Kit for 30 KVA Dry Type Transformers that can be used to mount 30 KVA dry type transformers on a wall. This saves floor space and helps to protect the transformer from spills, leaks, and other possible floor based hazards.

The MT-XX-DTM-WM-30KVA allows 30 KVA dry type transformers to be safely and securely mounted on walls. This bracket kit includes a base mount skid platform that the transformer is mounted on once it is attached to the wall. It also includes a pair of stabilization brackets that mount to the top of the transformer to reduce the possibility of tipping or tilting.

Applications: Wall mounting for 30 KVA dry type transformers.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
