Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Replacement 50 Watt LED Assembly for EPL-BS-70LED Series Units. This is a replacement LED light head assembly for square light heads. This includes complete body, lens, and internal components. This unit is for replacing damaged light head assemblies. Please choose voltage and beam confirmation at checkout. Please note that units with inline step down power supply require 12-24V unit even though the unit is powered from 120-277V before the inline transformer.
