

LM-SP-GW-S2.4

Guide Wires for Mast - Stages 2-4, 3/16 Cable

Product ID: 304694

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics LM-SP-GW-S2.4 Guide Wires for Masts provide stability for towers in outdoor areas. This set includes six guide wires, each with mounting brackets and tensioner.

The LM-SP-GW-S2.4 includes a total of six guide wires for supporting mast stages 2, 3 and 4. Each wire includes a mounting bracket and 304 stainless steel tensioner. Measurements for each guide wire are: Stage 2- 26 feet (2 pcs), Stage 3- 36 feet (2 pcs) and Stage 4- 46 feet (2 pcs).

Application: Outdoor areas, work sites, mast stabilization, towers and more.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
