

PDU-ATS-100A-600V-3PH-N1

100-amp Automatic Transfer Switch - 600 V 3PH - Aluminum - NEMA 1

Product ID: 304949

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

PDU-ATS-100A-600-3PH-N1 Automatic Transfer Switch

Unit Type: Automatic Transfer Switch

Dimensions: 20" x 14.6" x 7.09"

Weight: 20 lbs

Voltage: 600 3PH

Amps: 100

Load Transition Type (Automatic): Open Transition

Materials: Aluminum

Finish: Electrostatically Applied and Baked Powder Paint

Mount: Wall or Surface, via (4) Screw Holes

Lug Range: 1/0 - #14

Larson Electronics manufacture a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being one-time custom builds. The specifics for this configuration are listed in the specification table and one-line diagram.

The Larson Electronics PDU-ATS-100A-600V-3PH-N1 Automatic Transfer Switch is ideal for managing electrical loads between two sources in industrial facilities. This 100-amp, 600 V three-phase controller handles timing, sensing, exercise functions and transfer commands. Constructed of aluminum, the unit is housed in a NEMA 1 enclosure.

The PDU-ATS-100A-600V-3PH-N1 offers accurate control of electrical power and loads in locations where a backup generator or energy management system is installed. This 100-amp unit features 600V three phase compatibility and an open type of load transition (automatic). The controller is designed to handle all

commands related to the following: timing, sensing, exercise functions and transfers. During abnormal conditions, this unit can withstand a maximum of 10,000 amps.

The automatic transfer switch is constructed of aluminum with electrostatically applied and baked powder paint. Operators may mount the NEMA 1-rated unit on compatible walls or surfaces, via four screw openings located at the back of the controller.

Applications: Backup generators, power management, energy systems, industrial facilities, commercial spaces and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
