IND-CC-EMT-GS-0.75

0.75" Conduit Clamp G-Strut - Electro Galvanized Steel

Product ID: 314093

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics IND-CC-EMT-GS-0.75 Conduit Clamp supports conduit and pipes for stability during installation. This unit can be used with standard pipe, rigid metal conduit or galvanized rigid conduit.

The IND-CC-EMT-GS-0.75 is designed for industrial sites, offering support for conduit and electrical systems. This 0.75" conduit clamp is made of steel with an electro galvanized finish for durability in rugged work areas. The conduit clamp can be used for seismic applications.

Applications: industrial sites, conduit connections, electrical systems, wiring access, manufacturing and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
