

IND-SW-PB-EST-120V-30A-N4

Push Button Switch - 120V 1PH - 30 Amps - Weatherproof Construction - NEMA 6P/NEMA 4 Rated

Product ID: 319399

Image: IND-SW-PB-EST-120V-30A-N4

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

IND-SW-PB-EST-120V-30A-N4 Weatherproof Push Button Switch

Unit Type: Industrial Push Button Switch

Internal Dimensions: 6"-H x 6"-W x 4"-D

Weight: -

Voltage: 120V 1PH

Amps: 30

Switch Type: Red Mushroom Head

Reset: Push-pull

Materials: Plastic Moulding Compound, Polycarbonate

Mounting: Surface Mount via (4) Holes

Configuration: Feed Through or Dead End

Made in the USA

The Larson Electronics IND-SW-PB-EST-120V-30A-N4 Push Button Switch provides accurate control of machines, devices and processes. This weatherproof device operates with 120V single phase and is protected by a NEMA 6P/NEMA 4 rated enclosure. The 30-amp red push button switch can be reset with a push-and-pull action and is offered in a feed through or dead end configuration.

ENCLOSURES*

The IND-SW-PB-EST-120V-30A-N4 is designed for robust control of machines, motors and devices in rugged work sites. This industrial push button switch is compatible with 120V three phase. The 30-amp unit features a red, mushroom head switch, which is easily visible. Reset is facilitated by a push-and-pull action. This industrial push button switch is constructed of plastic moulding compound and polycarbonate.

Ideal for both indoor and outdoor use, as well as marine locations, the NEMA 6P/NEMA 4 rated device offers superior corrosion resistance. A NEMA 6P rating ensures protection against solid foreign objects, falling dirt, dust and water (hose directed spray and submersion up to a certain depth). The unit can also resist the negative effects of external ice formation.

Operators may mount the weatherproof unit on surfaces via four mounting holes at every corner of the enclosure. The IND-SW-PB-EST-120V-30A-N4 is offered in a feed through or dead end configuration.

Applications: Control stations, machine activation, marine sites, outdoor locations, industrial facilities, warehouses, manufacturing sites and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
