ETX-3P-480V-10KVA-208V-DT-N4X

10 kVA Explosion Proof Transformer - C1D1 - 3PH - 480V Primary - 208V Secondary - NEMA 4X Disconnect

Product ID: 320560

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

ETX-3P-480V-10KVA-208V-DT-N4X Explosion Proof Transformer

Unit Type: Explosion Proof Transformer
Dimensions: 16.38"L x 22.38"W x 22.12"H
Phase: Three Phase
kVA: 10
Primary Voltage: 480 V
Secondary Voltage: 208 V
Frequency: 60 Hz
Primary/Secondary Configuration: Two Winding
Winding Material: Copper
Disconnect: Included, C1D1 NEMA 4X
Termination: Leadwires
Electrostatically Shielded: Yes
Temp Rise/Insulation: 115°C/180°C
Sound Level: Meets NEMA ST-20 Standards
Enclosure Material: Cast Aluminum
Input/Output Hubs: 3/4" NPT Input and 3/4" NPT Output Hubs
Mounting: Surface
Weight: 400 lb

Ratings/Approvals

Class I, Division 1 & 2, Groups C & D
Class II, Division 1 & 2, Groups E, F, G
NRTL Listed for United States and Canada
NEMA 4X

The ETX-3P-480V-10KVA-208V-DT-N4X by Larson Electronics is an Explosion Proof Transformer for use in hazardous locations. Suitable for both indoor and outdoor applications, the ETX-3P-480V-10KVA-208V-DT-N4Xprovides increased reliability, protection against critical equipment failures and an extra level of protection by isolating the power source from the connected device.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS

Transformer Features: With a transformer rating of 10 kVA, the ETX-3P-480V-10KVA-208V-DT-N4X is a three phase unit with a primary voltage of 480 V. It also provides a secondary voltage of 208 V. The transformer contains a two-winding primary and secondary configuration and reverse connectables, as well as electrostatically shielded components and wire leads connection. Featuring robust construction, the enclosure is made out of cast aluminum.

The explosion proof transformer comes with a NEMA 4X rating, which offers watertight protection and corrosion resistance. This unit also includes a NEMA 4X Class I, Division 1 explosion proof disconnect.

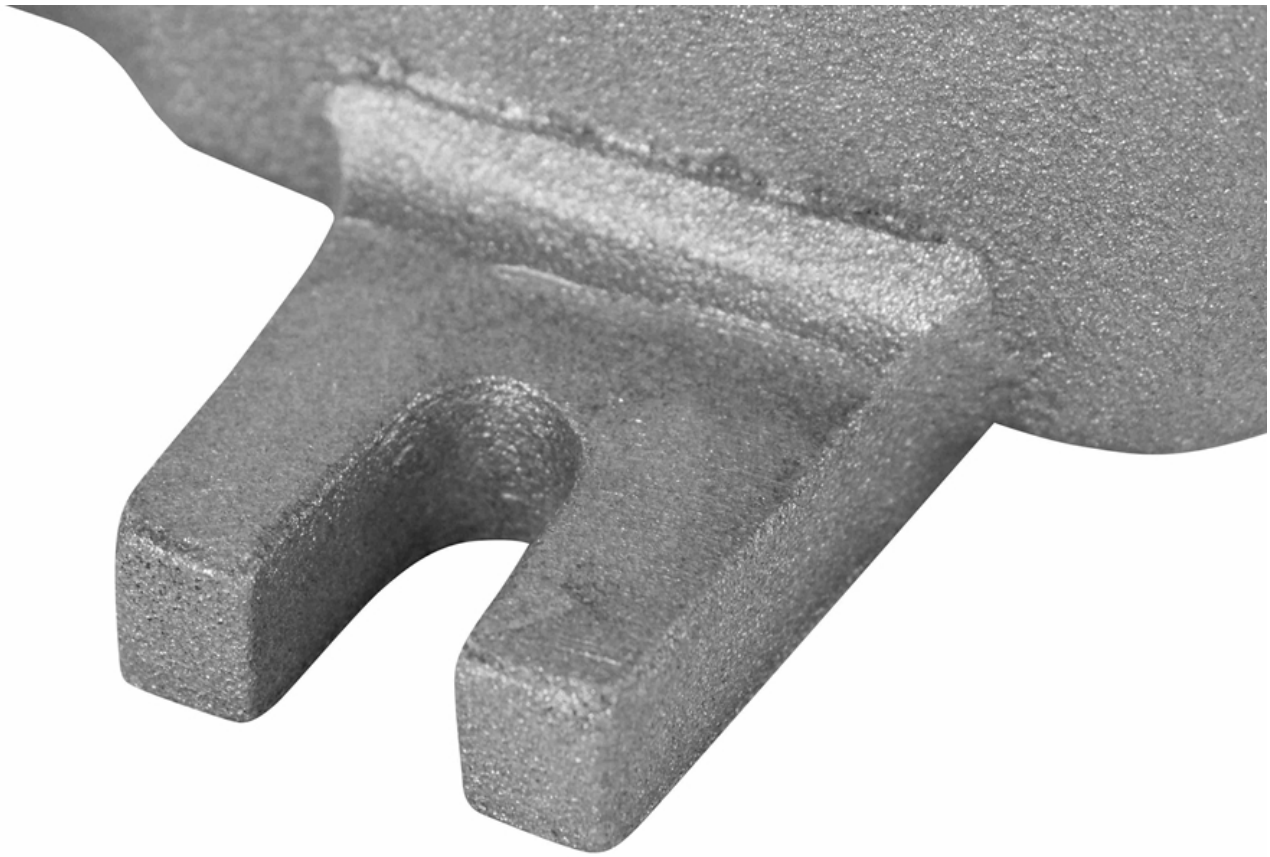

The following input/output hubs can be found on this unit: 3/4" NPT (input) and 3/4" NPT (output). The ETX-3P-480V-10KVA-208V-DT-N4Xmay be mounted on compatible surfaces in Class I and Class II environments. This transformer provides owners with significant energy savings as well as offering environmental benefits. Higher efficiency not only extends the life of the transformer, but also turn into cost savings for owners in the form of lower energy bills and decreased cost of ownership.

Applications: Chemical processing plants, oil refineries, wastewater facilities and other classified industrial facilities that adheres to the ratings of this unit.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
