

MPD-PNL-1P-MCB-225A-120.240V-N1-18CKT

Electrical Power Distribution Panel - 120/240V 1PH - 225A MCB - NEMA 1 - (18) Circuits

Product ID: 322094

Image: MPD-PNL-1P-MCB-225A-120.240V-N1-18CKT

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-PNL-1P-MCB-225A-120.240V-N1-18CKT Electrical Power Distribution Panel

Line In: 120/240V 1PH 3W- Customer Provided

Interrupting Rating: 25 kAIC

Panel: 120/240V 1PH 3W 225 A Main Circuit Breaker - NEMA 1

Circuits: 18

Main Breaker: 3-pole, 225A

Breaker(s): (18) 20A 1P [125V], (2) 20A 2P [125V]

Outlet(s): N/A

Bus Material: Tin-plated aluminum

Neutral Bar: Included

Ground Bar: (1) Standard bolted aluminum ground bar (for AL or CU wire)

Mount: Surface Mount

Dimensions: 27"-L x 15"-W X 7"-H

Weight: 39 lbs

Larson Electronics manufacture a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being custom builds. The specifics for this configuration are listed in the specification table and one-line diagram.

The MPD-PNL-1P-MCB-225A-120.240V-N1-18CKT from Larson Electronics is an Electrical Power Distribution Panel that is designed for reliable, safe, and convenient power distribution at industrial work sites. This 225-amp unit provides 120/240V single phase via a 225 amp main circuit breaker. The power distribution panel can be used in portable power distribution systems.

****PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS****

Operation:

- Voltage: 120/240V 1PH
- Panel: 120/240V 1PH 225A MCB NEMA 1
- Breaker(s): (18) 20A 1P [125V], (2) 20A 2P [125V]
- Primary Outlet(s): N/A

*See specification table at the top of the page for more information about the power distribution system.

The MPD-PNL-1P-MCB-225A-120.240V-N1-18CKT electrical power distribution panel provides a safe and reliable way for operators in industrial settings to tap into and utilize power sources independently of the work area. The PNL series of electrical power distribution panels requires operators to provide their own line-in cables for use. Knockouts are provided for convenient installation of operator provided cables.

The electrical panel, which can be used in portable power distribution stations, is designed to operate with 120/240V single phase voltage. Power distribution for this electrical panel runs 120/240V through a 225-amp main circuit breaker.

Enclosure Design: This electrical power distribution panel is housed in a space-saving NEMA 1 enclosure for protection against dust, dirt, and moisture in indoor and outdoor locations. Constructed of steel, the unit's slim, rectangular profile is compatible with plug-in mounting configurations. A lockable opening deters the possibility of tampering. We also offer portable power distribution panels on dolly carts with wheels, powder coated cube frames with lifting eyelets/skid pockets or stand-alone with handles for faster turnarounds and completion of temporary tasks.

Certification: Larson Electronics is a UL 1640 panel shop and certified to build electrical and portable power distribution systems. All units are built in accordance to NFPA 70 (National Electric Code) and certified to UL 1640. All equipment is NEMA 1 rated for indoor use and provide a degree of protection against dirt, water, and ice. NEMA 3R, NEMA 4 and NEMA 4X equipment can be equipped upon request.

Grounding: Transformer is grounded to the frame and we provide a grounding lug on the frame for the earth ground.

~Please check all motor loads for dual rated motors that will work 208 or 240.~

Applications: This power distribution system is NEMA 1 rated and ideal for indoor use and applications including but not limited to; construction sites, plant maintenance, plant turnarounds, hazardous location operations, shows, exhibits, and shipyard operations.

At Larson Electronics, we do more than meet your lighting needs. We also provide

replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
