

WAL-QP-20F

20' Portable Quadpod Light Tower - 12-20' Height - Quadpod Mount

Product ID: 327607

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in Texas

The WAL-QP-20F Quadpod from Larson Electronics allows operators to raise equipment up to 20'. The tower is adjustable from 12' to 20'. Wheels at the base can be used to transport the unit around work areas.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO LIGHT MASTS, LIGHT TOWERS, OR QUADPODS

The WAL-QP-20F is a four leg quadpod fabricated from lightweight aluminum tubing. The quadpod is adjustable in height, from 12' to 20' telescoping, and included solid wheels allow the operator to tilt the unit back and simply roll the entire assembly to a new location when fully deployed. The top assembly can be removed by releasing the hand knob and sliding the mounting bracket off the center support while the legs can be collapsed, aiding in deployment, storage and transport.
