GAU-CR-85-JB-200Y.115

General Area 85' Aircraft Power Cord Reel – 200Y/115V 400 Hz – Aircraft Umbilical Connector Output

Product ID: 327789

Image: GAU-CR-85-JB-200Y.115

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

GAU-CR-85-JB-200Y.115 General Area Cord Reel

Unit Type: Industrial Cord Reel

Dimensions: -

Weight: -

Input Voltage: 200Y/115V, 400 Hz

Power Capacity: Supports 90 kVA aircraft umbilical cable

Safety: Ball Stop and Ratchet w/ Lockout

Materials: Steel
Finish: Powder Coating
Mounting: Flat Surface
Input: Junction Box w/ 1/2" NPT Hub
Output: 115V/200Y 400 Hz Aircraft Umbilical Connector (90 kVA rated) w/ Strain Relief
Wiring: 85' 6-conductor 400 Hz Aircraft Power Cable w/ Reel

Ratings

NRTL Listed to UL Standards

Made in the USA

The Larson Electronics GAU-CR-85-JB-200Y.115 General Area Cord Reel is designed for lift/drag up to 85 feet for aircraft ground power applications. This unit allows operators to extend a 200Y/115V 400 Hz power source up to 85 feet from the reel, provides easy cable management when not deployed, and includes a 400 Hz aircraft

umbilical connector with strain relief on the output side. Constructed of steel with a powder coated finish, the cord reel is built for heavy-duty aviation use and integrates a junction box input for direct connection to 400 Hz GPU systems.

The GAU-CR-85-JB-200Y.115 provides an 85-foot length of 400 Hz aircraft power cable for extended operational range. Designed for a lift/drag capacity suitable for aircraft-grade 400 Hz cable, the reel includes 85 feet of active travel plus additional safety wrap for proper spooling performance. This reel is NRTL listed to UL standards, constructed of durable steel, finished in corrosion-resistant powder coating, and equipped with a ball stop and ratchet with lockout feature. A junction box with 1/2" NPT hub is mounted on the reel for input terminations. The output side contains a 200Y/115V 400 Hz aircraft umbilical connector with reinforced strain relief.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
