

MPD-ST3-3P4W-60A-208V-3PH-N1-M1

60-amp Static Transfer Switch - 208V 3 Phase 3 Pole (4 Wire) - NEMA 1

Product ID: 330631

Image: MPD-ST3-3P4W-60A-208V-3PH-N1-M1

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-ST3-3P4W-60A-208V-3PH-N1-M1 Static Transfer Switch

Unit Type: Static Transfer Switch

Dimensions: 40.00"-H x 18.00"-W x 20.00"-D

Weight: 265 lbs

Duty: Continuous Duty, 100% Rated

Phase: 3-Phase 4-Wire (3P4W), three pole, double throw

Voltage: 208V

Current Rating: 60A

Input: (2) Circuit breakers, 3P, 60A

Output: (4) Circuit breaker, 3P, 60A

Load Transition Type (Automatic): Closed Transition; fast break-before-make, < 4 milliseconds interruption

Modes of Operation: Normal Mode, Load Current Inhibit, Manual Transfer, Emergency Transfer, SCR (or equivalent) Failure, Maintenance Bypass

Accessories: Low voltage Control Junction Box w/ 24Vdc DPDT w/ contacts rated 10A at 240Vav; Remote Alarm Monitoring interface to EPMS; Network Adapter and Software

Seismic Rating: As per local building codes

Sound Level: Complies with NEMA ST-20 and IEEE C57.12.91

Materials: 11GA Sheet Steel

Finish: ANSI 49 Grey

Mount: Floor Mount, Top Feed

Lug Range: 1/0 - #14

Larson Electronics manufacture a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being one-time custom builds. The specifics for this configuration are listed in the specification table and one-line

Features/Ratings

NEMA 1, Indoor

Digital Power Technology (DPM)

10,000 Amps Withstand Rating

NRTL Listed for United States & Canada

Assy Transfer Control

Warranty: 12-month warranty including parts, labor, and travel

diagram.

The MPD-ST5-3P4W-60A-208V-3PH-N1-M1 from Larson Electronics is a Static Transfer Switch that is ideal for managing electrical loads between two sources in industrial facilities. This 60-amp, 208V three-phase, four-wire controller handles timing, sensing, exercise functions and transfer commands. the unit is housed in a NEMA 1 enclosure.

The MPD-ST5-3P4W-60A-208V-3PH-N1-M1 offers accurate control of electrical power and loads in locations where a backup generator or energy management system is installed. This 60-amp unit features 208V three phase compatibility and an open type of load transition (automatic). The controller is designed to handle all commands related to the following: timing, sensing, exercise functions and transfers. During abnormal conditions, this unit can withstand a maximum of 10,000 amps.

Applications: Backup generators, power management, energy systems, industrial facilities, commercial spaces, and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
