Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The LMP-FG-XX-GWR-0.375 from Larson Electronics is a galvanized guy wire rope that provides operators with a reliable solution for securing structures, towers, and equipment requiring additional stability in demanding environments.

The LMP-FG-XX-GWR-0.375 features a 3/8" diameter high-strength steel wire rope constructed from durable carbon steel and finished with a corrosion-resistant galvanized coating. This guy wire is designed for outdoor and industrial use, offering excellent resistance to weather, abrasion, and mechanical stress. Suitable for applications such as utility pole support, tower stabilization, and general rigging, this wire rope delivers dependable performance and long service life in harsh conditions.
