Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The LMP-FG-XX-GS-0.4375 from Larson Electronics is a galvanized guy strand that provides operators with a reliable solution for securing utility poles, towers, and structures requiring additional stability in demanding outdoor environments.

The LMP-FG-XX-GS-0.4375 features a 7/16" diameter extra high strength (EHS) steel strand constructed in a 7-wire (1x7) configuration and finished with a corrosion-resistant galvanized coating. This guy strand is specifically designed for overhead line construction and utility applications, offering excellent tensile strength, durability, and resistance to weather, abrasion, and mechanical stress. Supplied on a spool for convenient handling and installation, this strand is ideal for pole guying, tower stabilization, and structural support systems where high mechanical load capacity is required.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
