MT-POC-XX-SP9502

Draw Lead Terminal Adaptor for Paper Oil Capacitor Bushing – 4.75 Inch Length

Product ID: 336424

Image: MT-POC-XX-SP9502

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MT-POC-XX-SP9502 Paper Oil Draw Lead Terminal Adaptor
Unit Type: Draw Lead Terminal Adaptor for Paper Oil Capacitor Wound Core Bushing Connector
Compatible Voltage Class: 161 kV
Compatible BIL and Full Wave Crest: 750 kV
Compatible Current Rating: 800A
Compatible Top Terminal Type: Threaded
Compatible Top Terminal Outside Diameter: 1 1/2-12 inches
Material: Aluminum / Copper Alloy
Terminal Plating: Silver Plated
Mounting Position: Vertical
Material - Flange: Aluminum
Material - Insulation: Porcelain
Mounting Position: Vertical
Adaptor Length: 4.75 inches
Compatible Thread Size: 1 1/2-12 inches
Weight: Approx. 3-8 lbs (estimated depending on material configuration)

Ratings:
IEEE Standards
Corrosion Resistant Hardware
Designed for Outdoor High Voltage Applications

Features:
Provides extended connection interface for draw
Designed specifically for condenser bushing as
Compatible with paper oil capacitor wound core

The MT-POC-XX-SP9502 Draw Lead Terminal Adaptor is designed for use with PCORE Paper-Oil Capacitor Wound Core Bushings, specifically compatible with the POC750G0800S 161kV, 800A condenser bushing assembly. This adaptor features a 4.75" overall length and threaded silver-plated connection surfaces for reliable high-voltage electrical connectivity in transformer and substation applications.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS

Adaptor Features: This MT-POC-XX-SP9502 features a precision machined threaded interface, silver plated contact surfaces for improved conductivity, corrosion resistant construction, and compatibility with paper oil capacitor wound core bushings used in high voltage air-to-oil applications.

Adaptor Applications: Oil Transformers, Substations, High Voltage Power Distribution Systems, and Condenser Bushing Assemblies.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
