IND-CS-2XPB.MS-24V-PTM.2K-M1

Variable Frequency Drive Remote Control Station - (2) 24V Momentary Red/Green Push Buttons, 0-10V Rotary Speed Control, 2k Ohm Potentiometer - NEMA 3R

Product ID: 338011

Image: IND-CS-2XPB.MS-24V-PTM.2K-M1

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

IND-CS-2XPB.MS-24V-PTM.2K VFD Control Station
Unit Type: Variable Frequency Drive Remote Control Station
Internal Dimensions: 6"-H x 6"-W x 4"-D
Weight: -
Pushbuttons: (2) 24V Momentary, Red (Stop), Green (Start)
Rotary Dial: 0-10V Input - Speed Control
Speed Control: 2ohm Potentiometer, 0.5W
Materials: Plastic Moulding Compound
Mounting: Surface Mount
Hubs: (1) 3/4" or 1/2" NPT

Features/Ratings
Weatherproof
Highly Corrosion Resistant

The IND-CS-2XPB.MS-24V-PTM.2K from Larson Electronics is a Variable Frequency Drive Remote Control Station for industrial work sites. This weatherproof unit features push buttons for activation and a rotary dial for speed control of the connected VFD. Constructed from a plastic moulding compound, this remote control station contains one 3/4" or 1/2" NPT hub for completing input/output connections.

The IND-CS-2XPB.MS-24V-PTM.2K is designed to facilitate remote control for variable frequency drives. This unit contains two 24V push button switches in a momentary configuration (red/stop, green/start). Operators may also access a rotary dial for speed control,

which features 0-10V input. Speed control is provided by a 2k ohm potentiometer rated at 0.5W. This remote control box requires connection to the start, stop, and speed control signals of the VFD.

Ideal for both indoor and outdoor use, the IND-CS-2XPB.MS-24V-PTM.2K offers superior corrosion resistance. This NEMA 3R unit is weatherproof and features one 3/4" or 1/2" NPT hub for completing input/output connections. Operators can mount the VFD remote control station on flat surfaces.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
