IND-SDP-DH-50FT

50' Discharge Hose - Compatible with Submersible Sludge Dewatering Pumps

Product ID: 339237

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The IND-SDP-DH-50FT from Larson Electronics is a 50-foot discharge hose designed for use with submersible sludge dewatering pumps in industrial, utility, and construction applications. This hose provides a reliable discharge path for transferring sludge, wastewater, and other pumped liquids during dewatering operations.

The IND-SDP-DH-50FT is compatible with Larson Electronics submersible sludge dewatering pumps utilizing fire hose-style quick-connect fittings, allowing for fast installation and removal in the field. Its flexible construction enables efficient fluid transfer over extended distances, making it ideal for excavation sites, utility vaults, wastewater systems, and general dewatering applications.
