STDJB-130.180.80-HP

Surge Trap Diode Junction Box - 130mm x 180mm x 80mm - Hard Plastic Construction

Product ID: 339837

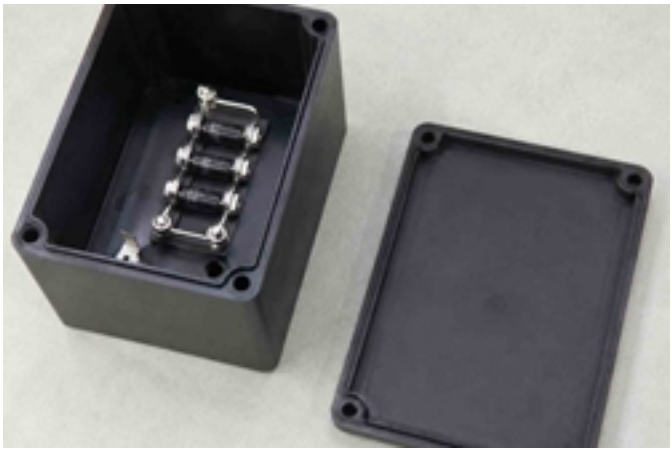

Image: STDJB-130.180.80-HP

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

STDJB-130.180.80-HP Weatherproof Junction Box
Internal Dimensions: 130 mm (L) x 180 mm (W) x 80 mm (H)
Enclosure Material: Hard Plastic
Mounting: Surface Mount
Construction: Impact-Resistant Hard Plastic
Application: Indoor/Outdoor Utility Installations

All grounding shall comply with state and local codes and meet the minimum requirements of the National Electronic Code section 250

Features/Ratings
Surge Trap Diode Junction Box
Houses Surge Trap Diodes
Designed for Transformer Protection Circuits
For Hyosung 132/13.8 kV, 60 MVA Power Transformer

Made in the USA

The STDJB-130.180.80-HP from Larson Electronics is a Surge Trap Diode Junction Box designed to house surge trap diodes used in transformer protection circuits. Constructed from durable hard plastic, this enclosure measures 130 mm (L) x 180 mm (W) x 80 mm (H) and provides a compact, protective housing for surge suppression components used with Hyosung 132/13.8 kV, 60 MVA power transformers.

The **STDJB-130.180.80-HP** Surge Trap Diode Junction Box is intended for use in utility and

industrial power distribution applications where surge suppression components require a dedicated enclosure. The hard plastic construction provides mechanical protection for the enclosed components while allowing convenient installation and maintenance. This enclosure is suitable for housing surge trap diodes and associated wiring used to help protect transformer control and protection circuits from transient voltage surges.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
