MPD-SWGR-MV-XX-SP9614

15kV Metal-Clad Switchgear Utility CT & Fixed-Mounted VT Mounting Provisions Retrofit Kit - Main-Tie-Main Auto-Transfer Package

Product ID: 341382

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-SWGR-MV-XX-SP9614 Metal-Clad Switchgear Utility CT & Fixed-Mounted VT Mounting Provisions Retrofit Kit

Unit Type: Utility CT & Fixed-Mounted VT Mounting Provisions Retrofit Kit

Application: Existing Metal-Clad Switchgear Retrofit

Breaker Type: Vacuum Circuit Breaker
Rated Voltage: 15 kV
Utility CT Mounting Provisions: (3) Positions
Fixed-Mounted Voltage Transformer: Provisions Only
Ground Bus: Plated
Auto-Transfer Scheme: Main-Tie-Main Relay Logic (Programming Only)
Certified Test Report: Included
Compatibility: Existing 15kV Metal-Clad Switchgear
Installation: Retrofit Existing Switchgear Cell

The Larson Electronics MPD-SWGR-MV-XX-SP9614 15kV Metal-Clad Switchgear Utility CT & Fixed-Mounted VT Mounting Provisions Retrofit Kit - Main-Tie-Main Auto-Transfer Package is designed for retrofit applications involving existing 15kV metal-clad switchgear. This retrofit kit provides mounting provisions for three (3) utility current transformers (CTs), provisions for a fixed-mounted voltage transformer (VT), ground bus plating, and Main-Tie-Main auto-transfer relay logic programming for installation within Structure 5, B Compartment. The package also includes a certified test report and is intended to facilitate the modernization of existing switchgear while maintaining compatibility with the original equipment configuration.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS*

Retrofit Kit Features: This MPD-SWGR-MV-XX-SP9614 includes mounting provisions for three (3) utility CTs, provisions for a fixed-mounted VT, plated ground bus, Main-Tie-Main auto-transfer relay logic programming, and a certified test report. Designed for retrofit projects, the kit supports the integration of utility metering and automatic transfer functionality while minimizing modifications to the existing switchgear structure.

Applications: Retrofit and modernization of existing 15kV metal-clad switchgear requiring utility metering provisions, relay logic programming for Main-Tie-Main auto-transfer schemes, and associated switchgear upgrades. Suitable for medium-voltage switchgear modernization projects involving replacement or modification of existing equipment.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
