

MT-HPM-ER074-FLT

Hall Probe Mounting Bracket, ER 074 Compatible, Flat Pole Face

Product ID: 342263

Image: MT-HPM-ER074-FLT

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MT-HPM-ER074-FLT Hall Probe Mounting Bracket

Unit Type: Mounting Bracket, Hall Effect Probe

Compatibility: Commercial Bruker ER 074 Electromagnet, Flat Pole Face

Function: Positions and Secures Hall Effect Probe at Pole Face

Dimensions & Shipping

Overall Dimensions: TBD

Approximate Weight: TBD

Shipping Dimensions: TBD

Shipping Weight: TBD

Features of Every Assembly

Designed for Direct Mounting to Flat Pole Face Geometry

Shipping

Shipped on pallet or skid

Crated shipment available upon request

Final shipping configuration subject to approved design

Larson Electronics manufactures a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being custom builds. The specifics for this configuration are listed in the specification table and applicable drawings.

Made in the USA

The MT-HPM-ER074-FLT is a mounting bracket designed to position and secure a Hall Effect probe to the flat pole face of a commercial Bruker ER 074 electromagnet. This bracket provides a secure, repeatable mounting solution for precision magnetic field measurement setups.

The mounting bracket is designed for direct compatibility with the flat pole face geometry of the ER 074 electromagnet, ensuring consistent probe positioning for accurate field measurements.

Compatibility: This mounting bracket is designed specifically for use with a commercial Bruker ER 074 electromagnet, flat pole face configuration.

Shipping: Unit ships on pallet or skid; crated shipment available upon request. Final shipping configuration subject to approved design.

Certification: As a mechanical mounting fixture, certification requirements are limited; any applicable standards to be confirmed during engineering review.

Customer Compliance: The final arrangements, sizes, ratings, settings, configuration, and installation details of this equipment will be established in accordance with detailed engineering review, applicable project documentation, and customer approval prior to manufacture.

Applications: Precision Hall Effect probe positioning for magnetic field measurement applications on Bruker ER 074 and compatible electromagnet systems.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
