

HL-LED960

Rechargeable LED Trouble Light / Drop Light with Hook

Product ID: 46363

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics HL-LED960 rechargeable LED trouble light with hook provides versatile operation through spot and floodlight capability and can operate for up to 24 hours on a single charge. EPDM rubber over the head and body provides comfortable operation as well as added protection against dropping, and a rechargeable lithium-ion battery provides long operational life.

This handheld unit operates as a multi-task light which can be switched from a handheld spotlight to a flood light with the click of a three position rocker switch. This LED trouble light can be conveniently hung above a work space to illuminate an area approximately 25' by 25', or operated in spotlight mode to be used as a normal flashlight. This unit reaches approximately 25ft in spotlight mode and can last up to 24 hours with a completely charged battery. This unit covers an area of 15x15 ft in floodlight mode and can last up to 6 hours. The LED spot light contains 6 LEDs and produces 360 lumens, and the LED flood light contains 16 LEDs and produces approximately 960 lumens.

The HL-LED960 Rechargeable LED Trouble Light comes with a wall charger that takes just 4 hours to charge the integral 2200mA lithium ion battery. The included charger can be operated with 110 volts to 230 volts AC for versatile charging

option from a variety of standard currents. This LED hand lamp is water and dust proof to resist the effects of wet and dusty environments and will withstand operation in temperatures ranging from -40 to 60 degrees Celsius.

Lamp Features

LED light produces 360 lumens in spotlight mode and 960 in floodlight mode.
Waterproof and dustproof.
50,000 hour LED Lamp
EPDM Rubber coating over body and cap.
Dual operational modes
Integrated hanging hook.
