LEDPL-UV365

Ultraviolet LED Flashlight 365NM - Intense UV Illumination - Lightweight and Durable Design

Product ID: 47467

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDPL-UV365 Handheld UV Flashlight

Type: UV Flashlight
Battery Type: (1) Rechargeable 18650 Lithium Ion Battery or (2) CR123 Batteries
Length: 5.83" L
Diameters: Knurled grip: 1", Bezel: 1.5", Tail Cap: 1"
Weight: 5.3 Oz
Peak Wavelength: 365nm
Lamp Life Expectancy: 100,000+ Hours
Output: UV
Case Material: Aircraft Aluminum
Finish: Mil-spec Hard Anodized Finish - Black
Compliance: RoHS Compliant
Grip: Knurled
Switch: Rear-mounted Tactical On/Off Switch with Momentary Function

Ratings/Features:

IPX8 Ingress Protection Rating
Rechargeable or Single Use Battery Operation
Durable Aircraft Aluminum Construction
Mil-spec Hard Anodized Finish
100,000+ Hour Service Life

The LEDPL-UV365 from Larson Electronics is an LED UV flashlight that emits a peak wavelength of 365nm light in the ultra-violet spectrum. The LEDPL-UV365 is constructed from lightweight and durable aircraft aluminum and features a military-spec hard anodized black finish. With a five hour runtime and a 100,000 hour rated service life, the LEDPL-UV365 is an ideal handheld UV flashlight for a wide variety of applications.

The LEDPL-UV365 is a highly durable and reliable UV flashlight. This compact UV flashlight features a removable pocket clip, removable anti-roll/cigar grip and a removable lanyard and switch protector. The LEDPL-UV365 has a rear tactical switch that offers operators both momentary and constant function of the UV light. The knurled grip of the LEDPL-UV365 gives operators a sure grip even in wet

conditions. This handheld UV flashlight has IPX8 ingress protection and can stand up to continual submersion in up to six feet of water.
Battery: The LEDPL-UV365 can run on both single use and rechargeable batteries. This UV flashlight can operate on one rechargeable 18650 lithium ion battery or two CR123 batteries. The runtime on the LEDPL-UV365 is up to five hours.
Applications: Paint booth inspection, tank inspection, leak inspection, aerospace, currency inspection, forensic analysis, blood tracking, hunting, UV drying of paints and lacquers, UV glueing, UV curing, UV marking, law enforcement, government, police work and any other situations that require a handheld and compact source of UV light.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
