

LEDPL-5-UV395-PK

Rechargeable UV LED Flashlight - Ultraviolet 395NM

Product ID: 49629

Image: LEDPL-5-UV395-PK

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDPL-5-UV395-PK Rechargeable Handheld LED UV Flashlight

Type: Rechargeable UV Flashlight

Battery Type: (1) Rechargeable 18650 Battery

Length: 4.881" L

Diameters: Knurled grip: 0.969", Bezel: 1.051"

Weight: 5.3 Oz

Peak Wavelength: 395nm

Lamp Life Expectancy: 100,000+ Hours

Charger: 120V Wall Charger

Output: UV

Case Material: Aircraft Aluminum

Finish: Mil-spec Hard Anodized Finish - Black

Compliance: RoHS Compliant

Grip: Knurled

Switch: Rear-mounted Tactical On/Off Switch with Momentary Function

Ratings/Features:

IPX8 Ingress Protection Rating

Rechargeable or Single Use Battery Operation

Durable Aircraft Aluminum Construction

Mil-spec Hard Anodized Finish

100,000+ Hour Service Life

Removable Pocket Clip and Anti-Roll Ring

Up To 4 Hour Runtime

The LEDPL-5-UV395-PK from Larson Electronics is a rechargeable LED UV flashlight that emits a peak wavelength of 395nm light in the ultra-violet spectrum. The LEDPL-5-UV395-PK is constructed from lightweight and durable aircraft aluminum and features a military-spec hard anodized black finish. With an approximate four hour runtime and a 100,000 hour rated service life, the LEDPL-5-UV395-PK is an ideal handheld UV flashlight for a wide variety of applications. This LED UV flashlight runs on one rechargeable 18650 battery and includes a 120V wall charger.

The LEDPL-5-UV395-PK is a highly durable and reliable UV flashlight. This compact UV flashlight features a removable pocket clip, removable anti-roll/cigar grip and a removable lanyard and switch protector. The LEDPL-5-UV395-PK has a rear tactical switch that offers operators both momentary and constant function of the UV light. The knurled grip of the LEDPL-5-UV395-PK gives operators a sure grip even in wet conditions. This rechargeable handheld UV flashlight has IPX8 ingress protection and can stand up to continual submersion in up to six feet of water.

Battery: The LEDPL-5-UV395-PK runs on one rechargeable 18650 battery. The runtime on the LEDPL-5-UV395-PK is up to four hours. This LED UV flashlight also comes with a 120V wall charger to offer operators several convenient recharging options.

Applications: Paint booth inspection, tank inspection, leak inspection, aerospace, currency inspection, forensic analysis, blood tracking, hunting, UV drying of paints and lacquers, UV gluing, UV curing, UV marking, law enforcement, government, police work and any other situations that require a handheld and compact source of UV light.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
