HUL-18-HID-RED-C

35W HID Handheld Hunting Spotlight - Pistol Grip - 12V - 2000'+ Spot Beam - 3200 Lumen

Product ID: 49723

Image: HUL-18-HID-RED-C

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HUL-18-HID-RED-C Spotlight
Lamp Type: HID High Intensity Discharge
Dimensions: 10" High 5.5" Diam 4.25" Depth
Weight: 1.2 Lbs
Voltage: 12 or 24 VDC
Watts: 35 Watts
Lamp Output: 3200 Lumen, 15 Million Candlepower
Light Color: 6500 Kelvin- White/Red with Lens Cover
Beam: 2400-L x 80-W; (Red): 1600`L X 50`W
Ambient Operating Temp: -40°C to 105°C
IP Rating: IP67 Waterproof
Vibration Tolerance: 8.6G RMS
Mounting: Handheld Portable
Wiring: 16ft Coil Cord w/Cigarette Plug, 21ft Cord with Ring Terminals, 16ft Cord w/Battery Clamps, 16ft Cord with Cigarette Plug

The Larson Electronics HUL-18-HID-RED-C Spotlight is a rugged and effective HID spotlight designed to provide users with a powerful, durable, and easy to use source of reliable light. This spotlight has a 35 watt HID bulb which produces a light beam approximately 2400' long by 80' wide, use of the red lens knocks down the beam to 1600` long. This spotlight includes a detachable 16 foot coil cord with cigarette plug and a removable adhesive backed red lens

for hunting use.

This durable and weatherproof spotlight is ruggedly designed to withstand heavy duty use and includes a 16 foot coil cord and cigarette plug adapter to allow connection to any vehicle or ATV equipped with a cigarette plug. This light contains a single 35 watt HID bulb paired with a precision aluminum reflector and borosilicate hardened glass lens to produce a powerful 3200 lumen, 15 million candlepower light beam that reaches 2400 feet in length and 80 feet in width. However, while using the red hunting lens, the beam is dropped down to 1600` in length. This beam is strong enough to allow operators to read signs, license plates, addresses and other similar markings at the far end of its total range.

This spotlight is built for durability and comfort with an impact resistant nylon housing, an ergonomically designed 5 inch tall polycarbonate handle that matches the contours of your hand, and a light head that can be adjusted vertically. The 5.5 inch diameter lamp and reflector assembly is protected by a borosilicate hardened glass lens that is sealed against water and dust to provide an IP67 rating and weatherproof protection. Included with this spotlight are adhesive backed, red polymer lens covers that can be simply placed over the spotlight lens to produce a red beam for hunting applications. Applying the red lens reduces output slightly, yet still results in a strong red beam capable of reaching much farther than comparable halogen units. These red lenses are applied like a sticker and can be simply pulled off the lens to return the unit to its full white light output.

A simple on/off toggle switch is located on the side of the handle for easy operation and power options include 12 or 24 volt DC versions for use with most common vehicle, boat or ATV electrical systems. This spotlight is a powerful and rugged design ideal for use in hunting, utility, emergency, industrial/commercial and military/law enforcement applications.

Durability-Convenience: The HUL-18-HID-RED-C Spotlight is constructed of impact resistant materials including an impact resistant nylon housing and polycarbonate handle. The lamp assembly contains an aluminum reflector and borosilicate hardened glass lens. The lamp assembly is sealed against water and dust and the entire unit is IP67 rated waterproof to 1 meter.

16ft Coil Cord w/Cigarette Plug

21ft Cord with Ring Terminals

16ft Cord w/Battery Clamps

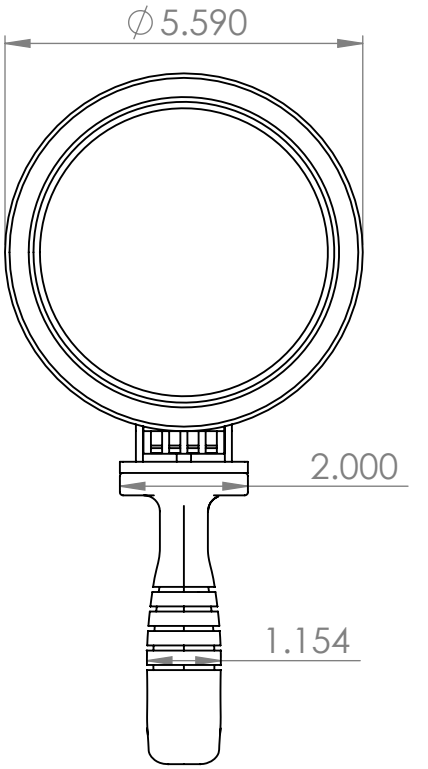

16ft Cord with Cigarette Plug

Each HUL-18-HID-RED-C Spotlight comes with a detachable 16 foot coil cord with cigarette plug. The cord is detached via a weatherproof, 2 pin Deutsch connector which easily and securely attaches and detaches the coil cord from the spotlight. Other cords, including 21 foot cords with ring terminals (C-21RT), 16 foot cord with spring battery clamps (alligator clips) (C-16BC) and a 16 foot straight cord with cigarette plug (C-16CP) are available. This light can be ordered in either 12 volt or 24 volt configuration, allowing it to be used with any vehicle or ATV equipped with a cigarette plug. Choose voltage below when ordering.

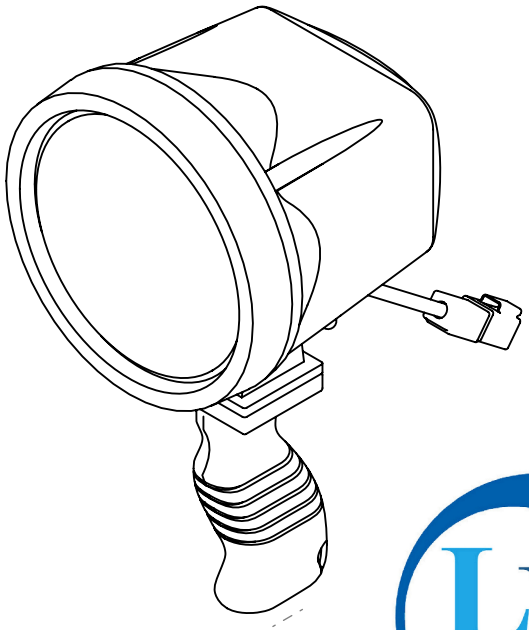

Versatility: The entire unit weighs only 1.2 lbs and comes with adhesive red lenses to convert the beam to red output for hunting applications. The light head is mounted to the handle with an adjustable hinge that allows the head to be adjusted vertically. The five inch tall handle is ergonomically designed to fit the contours of your hand for a comfortable grip. This unit is ideal for predator and varmint hunting as well as military, security and law enforcement use and any application that requires an extremely durable and effective source of portable illumination.

Note on Voltage: Most vehicles are 12 Volts DC. 24 Volts ***DOES NOT*** mean more power. Running a 24V light from a 12V power source will result in a very dim or non-functioning light and may cause internal damage to the light as well. For common vehicle use, please order 12V.
