WAL-M-PUR-120V-50

120 Volt Blasting Light with Magnetic Mount - Polyurethane - 50 foot 16/3 Cord - MADE IN THE USA

Product ID: 49757

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Portable, handheld light with large handle and adjustable magnetic mount is ideal for indoor and outdoor, wet applications. Designed as a blasting light, for sand blasting and power washing applications inside of tanks and vessels, this lights unique, durable construction is useful for the most demanding applications. The operator can adjust the angle of the light and the light will hold the position until the operator changes it. The magnetic base attaches to any ferrous (steel) surface and can be completely removed if not required.

The light frame is made from molded polyurethane, which encapsulates the 5.25 inch diameter, 150 pound grip magnetic base. The polyurethane encapsulation protects mounting surface from scratching by magnetic base. Polyurethane absorbs shock and is rust and corrosion proof, while easily cleaned or decontaminated.
The portable, handheld light uses standard PAR 38, 150 watt, 250 watt or 12 Volt, 100 Watt lamps. The light ships with industrial grade 12volt DC bulbs have double filaments with rough surface lens. However, any PAR 38 lamp found in your local hardware store can be used as a replacement.

• Polyurethane construction eliminates the need for a ground wire.
• Silicone gasket seals socket eliminating potential shorting caused by airborne metallic dust and moisture.
• Large grips for secure handling, even with gloves.
• Polyurethane housing provides superior lamp protections guards against breakage from rough handling and vibration.
• Fixture is designed to ventilate heat away from the light for ease of handling.
• Suitable for all temperatures.
• Industrial capacity 5.25 inch diameter magnet, encapsulated in polyurethane for protection of the magnet base and any surface it is mounted to.
• Uses Par 38 fixtures in spot or flood configuration. Sealed lamps are suitable for wet applications. Available in 12 Volts AC, 120 Volts AC or 220 Volts AC.
• Weighs 8.25 pounds with cord. 12.5 inches long, 6.5 inches tall and 6.5 inches wide.

• Includes 50 foot, industrial grade 16/3 cord that is ¾ inch thick. SOOW cable is oil, chemical and abrasion resistant and is suitable for indoor and outdoor use to -58 degrees.
