MMH-5

200lb Magnetic Mounting Base with Eye Hook for Temporary Hanging Hand Lamps and Drop Lights

Product ID: 68789

Image: MMH-5

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

5 inch diameter magnetic base with 200 pounds of magnetic grip. The MMH-5 includes an enclosed eye hook for hanging drop lights and trouble lights. This magnetic base is heavy enough that it can hold our explosion proof drop lights on a flat surface. This allows operators to temporary mount hand lamps from the ceiling, wall, or any metallic flat surface.
